

Serene Innovations HD-60

Categories: Blind, Deaf, Hard of Hearing, Low vision

Manufacturer: Serene Innovations

The HD-60 is the first amplified phone to offer High-Definition Sound (HDS) Technology for un-matched voice clarity, making every word vividly sharp, clear and easy to understand, all virtually without any distortion, echo or squealing. It is also the first telephone to offer “off-hook” warnings to alert you that you’ve not reset the handset properly and thus unknowingly blocking all incoming calls. The HD-60 amplifies the incoming sound up to 600 times louder—it is ideal for people with moderate to severe hearing loss and for those who have tried but are not satisfied with other ordinary amplified phones.

Features

- High-Definition Sound Technology for unmatched clarity.
- Amplifies incoming sound up to 400 times (over 55+ dB).
- Selectable Digital Tone Setting allows you to boost and enhance the speech frequencies, making difficult to hear words intelligible again.
- Auto "off-hook" audible and visual warnings to alert improper hang-up.
- Large and brightly backlit keypad for easy viewing.
- 12 one-touch programmable memory buttons.
- Two (front and side) visual ring flashers.
- 95+dB super loud ringer with adjustable ringing volume and tone controls.
- Hearing aid compatible handset.
- 3.5mm jack for neck loop, tele-coil or other assistive accessories.

Specifications

- Requires modular phone jack and electrical outlet for operation.
- Includes telephone line cord, A/C adaptor and a wall mounting adaptor.

- Operating Instruction Booklet.
